

Enriched with
Vitamin E
& Selenium

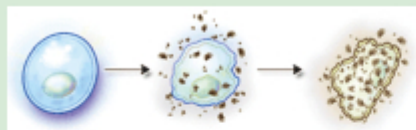

NP Sera[®] Plus Bolus

The Leader is now Stronger.

How Inflammation Develops ?

Mastitis

Cell Injury / Infection

Cell Damage

Phospholipid release

Phospholipase A (Steroid Blocks here)

Arachidonic Acid

COX -1

Cyto-protective prostaglandin

G.I. Protection.

COX -2 (NSAID Blocks here)

Pro-inflammatory prostaglandin

Inflammation, Pain.

Post-Operative Care

Respiratory Infections

Prolapse

Dystocia

Retention of Placenta

Treat inflammation from its Root

• Each uncoated NP Sera Plus bolus contains :

Nimesulide	500 mg
Paracetamol	2 gm
Serratiopeptidase	50 mg
Vitamin E	500 IU
Selenium	5 mg

• Vit.E :

1. Important lipid-soluble antioxidant.
2. Protects cell membranes from oxidation by reacting with lipid radicals.
3. Removes the free radical intermediates and prevents the propagation / chain reaction from continuing.

• Selenium :

- Glutathione Peroxidase and Thioredoxin Reductase are two natural antioxidant enzymes that contain Selenium for their functioning.
- The Glutathione and Thioredoxin antioxidant systems, function to regenerate other antioxidants.

Indications :

- Acute & chronic Mastitis.
- Uterine prolapse.
- Dystocia.
- Retention of placenta.
- Respiratory infections.
- Post-operative care.
- Pyrexia & Inflammation.

Dosage :

- Large Animals:
1 or 2 bolus twice daily for 3-5 days.
- Small Animals :
½ or 1 bolus twice daily for 3-5 days
Or as directed by the veterinarian.

Pack : 10 X 4 bolus strip
